10th December 2024

To all participants who helped TestCard

We attach a copy of the report issued by TestCard following their visit to the event in Warwick on the 21st November.

We would like to add our thanks to theirs for you taking the time to help in this exciting new development. A lot of you waited very patiently in true British style. Nobody queues like the British!

We currently use slightly different cut off criteria for our results; 2 for 40-year-olds, 3 for 50-year-olds, 4 at 60 and 5 at 70. These are in accordance with the age-related ages used by NICE and several NHS Hospitals and we know from discussions with the team at TestCard that this is an area they have under review.

In the meantime, however, we can confirm that their initial findings are very much in line with those shown by the full laboratory analysis results you received.

Our results for the same 112 of you who took part match with Testcard's results.

We are delighted to be able to tell you that TestCard will be attending the Event on the 16th of January at the Nelson to further "hone" the operation and their techniques to hopefully be able to move things further forward.

This time there will be a team of seven of them to make it work more quickly and smoothly. Please therefore tell your friends if they are thinking of having a PSA Test January would be the perfect time!

Again, a big thank you from us. The rapid progress they are making would not have been possible without you.

The Team at GFCT
